# Muhammad Aman

React Native Developer · iOS & Android Apps

Faisalabad, Pakistan | contact@muhammad-aman.com | +92 328 1199135 | linkedin.com/in/muhammad-aman1718 | muhammad-aman.com

## SUMMARY

React Native developer building iOS and Android apps from a single TypeScript codebase, currently working full-time at SigmaKode on real-time chat, live streaming and offline-capable mobile features. Hands-on across the mobile stack — React Native, Expo, Redux Toolkit and RTK Query — from turning Figma designs into polished, responsive screens to store-ready builds. Strong problem-solving foundation with 400+ LeetCode problems solved.

## EXPERIENCE

**SigmaKode** — Faisalabad, Pakistan

**Junior React Native Developer (Full-time)** — Aug 2026 – Present

**React Native Developer (Internship)** — Mar 2026 – Aug 2026

- Build real-time chat and live streaming features for React Native apps, focusing on reliability and responsiveness under real-world usage.
- Design local storage and SQL data layers that give users fast, offline-capable access to app data.
- Use Redux Toolkit and RTK Query for state management and API data fetching, keeping data flow consistent across the app.
- Optimise app performance so screens stay fast and responsive on both iOS and Android.

## PROJECTS

**DermaCare** | React Native, TypeScript, React Navigation, Reanimated

- Dermatology patient app for iOS and Android: find a skin specialist, check their schedule, book and pay for a visit, and chat with the doctor.

**Fire Weather** | React Native, TypeScript, React Navigation, Push notifications

- Fire-weather alert app showing temperature, humidity, wind and drought index for the user's location, with alerts when conditions cross their own thresholds.

**Caption AI** | React Native, TypeScript, React Navigation, AI API

- AI caption generator: pick a photo, choose the mood, platform and tone, and get ready-to-post captions, with a premium tier for more styles.

**Work Mate** | React Native, TypeScript, React Navigation, Reanimated

- HR app for employees: clock in and out, follow the day's tasks and meetings, check payroll and tax, and manage personal details and office assets.

Case studies and screens: muhammad-aman.com/projects

## SKILLS

**Mobile:** React Native, Expo, React Native CLI, React Navigation, Reanimated, iOS & Android

**Languages:** TypeScript, JavaScript

**State & data:** Redux Toolkit, RTK Query, Zustand, REST APIs, Firebase, SQL & local storage

**App features:** Real-time chat, live streaming, push notifications, offline-first data

**Other:** Figma-to-code, Git, Data Structures & Algorithms, Agile workflows

## ACHIEVEMENTS

- **Build with AI Hackathon** — Google Developer Groups (GDG)
- **LeetCode** — 400+ problems solved

## EDUCATION

**Khwaja Fareed University of Engineering & Information Technology (KFUEIT)** — Oct 2024 – 2028 (Expected)

Bachelor of Computer Science

**Govt. Graduate College of Commerce** — 2022 – 2024

Intermediate in Computer Science (ICS), Grade A
